

Press Release Intelligent Luggage Ltd

Milton Keynes based Intelligent Luggage Ltd, the UK's fastest growing Luggage Company have secured orders for 50,000 units in their first year of trading.

The company with factories in China have unique products that are designed to fit the budget of every traveller and destined to save every traveller money. Intelligent Luggage products have attracted orders from Argos, Asda (part of the Walmart Group), Ideal World (shopping Channel UK) and TJ HUGHES with many other high street names on the order bank.

Intelligent Luggage supply self weighing suitcases that weigh the contents and case at the touch of a button. The ranges are competitively priced but offer immensely strong and secure travelware.

Intelligent Luggage Press Release - Self weighing suitcases up to 50kg weighing performance at the touch of a button – www.selfweighingsuitcase.com

Designed in the UK the suitcases are ROHS tested for safety and specifically designed for the professional traveller. The ranges are available in stores throughout the UK with Milton Keynes Based Argos as a premier partner (on sale in store January 2010).

Our in house design team has worked on these products with the factory design team to produce a range that delivers high performance luggage. This can be packed to the airline weight limit with your confidence that a weight penalty fine will not be levied on the unsuspecting traveller.

Director Brent Williams said ‘Every traveller gets caught out from time to time with weight penalties, the fines are bigger and the limit’s more restrictive every journey. This range of suitcases allows travellers to get the maximum benefit of their weight allowance outbound and inbound with no worries.’

Case weights start at a competitive 2.9 KG’s, are fully lined, all have wheels and telescopic handles with security locks as standard along with a 100% recyclable build and materials to the latest Californian specifications. The cases will showcase at the Las Vegas luggage fair in March for their USA debut.
