PRESS RELEASE

PacSafe® selects the best Festive Season goodies for the pickiest people

A range of Festive Season goodies satisfy the hard-to-buy-for at a nice price

HONG KONG (November 9, 2009): There's always one, isn't there? The friend who has it all, an important office colleague or a fussy relative that is just about impossible to buy for.

While it is a problem as old as Christmas, Hanukkah and Lunar New Year together, there is a solution at hand.

Renowned for its anti-theft travel gear and patented slashproof eXomesh® technology, PacSafe® gives you its greatest Festive Season gift-giving ideas – cleverly matched to your budget.

The Stocking Filler

The ProSafe 750 is a pick-proof, ultra-secure thief-beater.

A technology breakthrough allows this ingenious lock to open with a coded card, providing greater protection than an old-fashioned keyed lock or combination code.

The credit card-sized keys fit snugly in your wallet or purse and because we ship two with every lock, never again will you lose another fiddly old-style key or struggle to remember a code.

The ProSafe 750 is heavy duty, TSA Travel Sentry® approved and the technology behind it is new to the travel market.

An Award-Winning Solution to Keep Valuables Safe

A spirited traveler shouldn't have to worry about keeping their MP3 player, digital camera or passport safe while enjoying an end of year break.

The TravelSafe 100 is an anti-theft portable safe that securely locks and then attaches to a fixed object. PacSafe's® slashproof eXomesh® cage, a laminated stainless steel mesh, secures volumes up to 2.5 liters (153 cubic inches) away from opportunistic thieves.

The water-resistant, tamperproof TravelSafe 100 is such an innovative product it won the prestigious ILM award for Best Intelligence at this year's International Luggage Show in Offenbach, Germany.

Daypacks for the Go-Anywhere Adventurer

For the fussy traveler that has it all, there's no better gift than a lightweight, ergonomically designed VentureSafe daypack.

The 20-liter size for women (1,220 cubic inches) and the 25-liter option for men (1,525 cubic inches) include the four PacSafe[®] anti-theft measures – tamperproof, slashproof, snatchproof and with eXomesh slashguards – as well as a new turn-and-lock anchoring system that makes it easier to keep your gear safe.

Our gift selection for the Festive Season:

ProSafe 750

A super tough, zinc-alloy lock that is new to the market

The revolutionary card opening system boosts safety and means never forgetting a combination or losing a key

Retail price: US\$12.99

TravelSafe 100

An award-winning, heavy-duty safe designed with mobility in mind

Lightweight (less than 11 ounces), water-resistant, tamperproof, lockable and able to hold up to 2.5 liters (153 cubic inches)

Retail price: US\$45.00

VentureSafe Daypacks

Ruggedly built to go anywhere and easily handle a day's sight-seeing in the outdoors

Ergonomically designed with water bottle holders, external zippered pockets and enough space inside to hold a camera, clothes and valuables

Extra secure, with panels of PacSafe's[®] slashproof eXomesh[®] stainless steel mesh covering the exposed surfaces

Retail price: US\$100 (womens' 20-liter size, pictured left)
US\$120 (men's 25-liter size)

About Pacsafe

Outpac Designs Ltd. (makers of Pacsafe[®]) was founded by people who love traveling and the excitement that it brings. We understand the last thing you want to be weighed down with on your travels is keeping your stuff is safe and secure.

We want you to remember your trips for the right reasons and to give you peace of mind while enjoying your adventure.

We travel extensively, listening to real travel stories and working hard to create practical and affordable solutions for an increasingly mobile world.
